

Cezar<sup>®</sup>

PERFECTION IN DETAILS

Cezary Niewiński

The CEZAR brand has been synonymous with the highest quality, pioneering innovations and timeless design since 1958. The founder of the company was a genius constructor Cezary Niewiński, whose enthusiasm and discoverer spirit can be found in the implemented projects. Today Cezar Group consists of 7 companies producing building materials and components for automotive industry.

PERFECTION IN DETAILS  
**1958**  
since

## design lab

CEZAR has always focused on innovation. Design Lab is a team of designers and constructors designing new products and methods of their production.

## 5 PLANTS IN THE CENTRE OF EUROPE

Factories located in independent locations ensure security in the event of random events.

**50**  
PRODUCTS AVAILABLE  
IN OVER 50 COUNTRIES

**12.500**  
PRODUCTS IN THE OFFER

**1.330**  
CUSTOMERS

**45**  
PRESENCE  
IN 45 DIY NETWORKS

**Q**  
QUALITY CONFIRMED  
BY CERTIFICATES

## logistics

A modern logistics center with an area of 8.500 m<sup>2</sup> guarantees efficient shipment of products. We carry out logistics in Europe with our own, modern transport fleet.

**36.000**  
(m<sup>2</sup>) TOTAL  
WAREHOUSE SPACE

We come from Elk, one of the cleanest regions in Europe. We feel responsible for the natural heritage and the future of the region. We create our products in accordance with the principles of sustainable development. Over the years, we have been improving the production process by increasing the amount of minerals in our products and increasing the use of recycled raw materials.

Resistant to humidity - natural choice of floor finish, especially in bathrooms or halls.

Forget about silicone. Two flexible soft edges conform to wall and floor irregularities, sealing the connection.

The board installed with mounting clips can be removed with one move. After making corrections just put it back on.

Reliable durability - Master Line® is the expert in durability, that has been tested by many „small masters“.

## WE BEGIN REVOLUTION

CEZAR Design Lab conducts research on BIO-compostable material, which is an alternative to PVC profiles and polystyrene or polyethylene accessories.

# bio

products

## PRODUCTS OF THE FUTURE

Using new materials subject to EN 14995 and EN 13432 standards will allow to the production of products that do not harm the natural environment.

We are in the testing phase of products made of a new BIO material: skirting board, accessories and hangers.

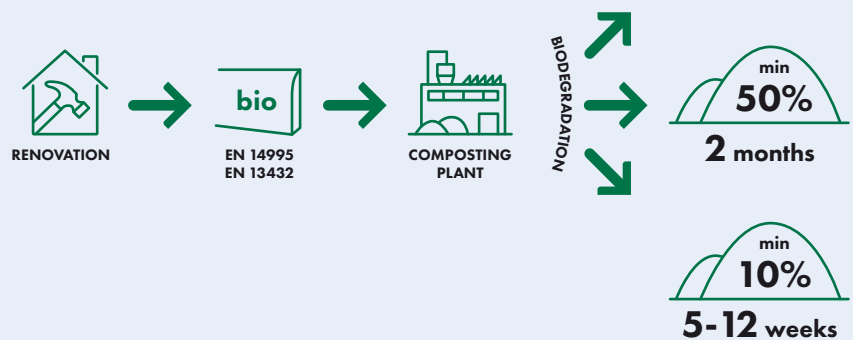

Soon we will introduce our clients completely ecological finishing materials.

Compostable bioplastics are biodegradable under environmental safe conditions. This process takes place in certified industrial composting plants.

## CONTROLLED PROCESS

## HOW IT WORKS?
